Cut Server Option

Complete Finishing Workflow Tool for Cutting Devices

In the print world, every penny and every moment count. EFI™ Cut Server Option helps you on both fronts by giving you one integrated finishing solution for EFI Fiery® XF and EFI Colorproof™ XF that covers all aspects of daily production and output. The option gives you the highest return on investment by making your business more productive and efficient and by enabling your company to expand into high-margin applications. Best of all, it supports a wide range of cutting devices, so your options are limitless.

Increases your Profits with New Service Offerings

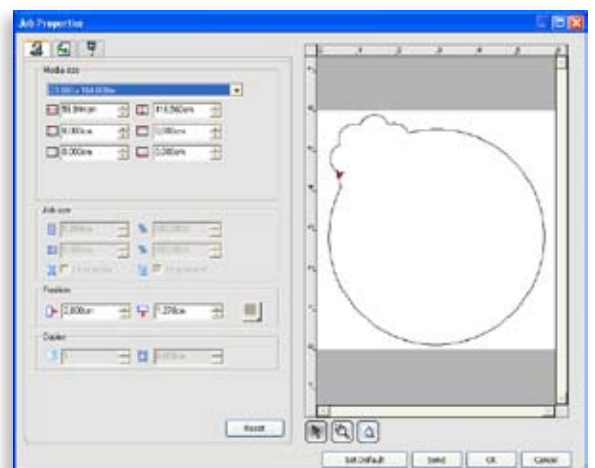

If you are a sign or print shop, label or packaging houses or production environment, the Cut Server Option offers a great way for you to differentiate yourself from the competition and to increase your profits. Now, you can offer new high-margin services, such as the labels, stickers, vehicle wraps, custom point of purchase displays, and even package prototypes, quickly by using your current equipment.

Be More Productive with an Easy, Efficient Solution

The Cut Server Option increases your productivity by seamlessly connecting your job output and finishing processes. It also lets you run up to four cut servers which in total allow you to drive up to 8 cutting engines in parallel to meet those tight turnaround times. In addition, this automated solution unifies the cutting workflow for any cutter type and model saving you precious time by eliminating the need to work with different software applications for each cutter. Best of all, the solution is easy-to-use and setup, so anyone can use it, regardless of their skill level.

Integrates Seamlessly with Market-Leading Solutions and Cutting Devices Worldwide

Like all EFI technology, the Cutting Option combines market-leading XF solutions and award-winning BestColor® Technology into one solution. It integrates seamlessly with the world-class XF product line and supports 1,200 cutting devices and routing tables spanning over 70 different manufacturers worldwide.

XF Solutions

EFI's portfolio of integrated solutions increases productivity and improves your bottom line. Find out more at www.efi.com.
