# Small footprint, big impact

EPSON®
EXCEED YOUR VISION

Exceptionally low TCO

The new SureColor SC-T3100x is everything you expect from Epson – quality, innovation and performance that delivers increased productivity, added convenience, impressive affordability and reassuring reliability.

Productivity

Increase your productivity and reduce downtime with our refillable ink solution. The cartridge-free printer features a high-capacity 4-colour ink tank that's quick and easy to refill – even during operation. Produce accurate A1-size prints in just 34 seconds and enjoy optimum use of the print area when using the cut-sheet, with a 3mm margin on both sides of the printout.

Affordability

Offering an impressive total cost of ownership, the SureColor SC-T3100x delivers professional performance for less, enabling you to benefit from high-volume printing with low running costs. Also features new low-cost ink-set: K (pigment) and CMY (dye).

Quality

Consistently outstanding clarity - print point-of-sale material, banners, in-store graphics, and more at qualities up to 2400 x 1200 dpi.

Convenience

The 24" printer offers the smallest footprint in its class and is simple to set up. The compact, contemporary design fits neatly into your workspace, with a suite of intuitive apps and user-friendly features for hassle-free printing. Choose from desktop or floor standing (including optional stand) and operate using the large LCD colour touchscreen featuring easy menu control and navigation. Full connectivity including USB, ethernet, integrated wireless and Wi-Fi Direct, incorporating Apple Air Print connectivity to allow printing from tablets, smartphones and more.

Reliability

With its PrecisionCore MicroTFP printhead, and unique Nozzle Verification Technology (NVT), the SureColor SC-T3100x ensures commercial-grade reliability, time after time.

Flexibility

Accommodates rolls up to 24-inches and A4/A3 sheets, through the Auto Sheet Feeder with auto switch, as well as cut-sheet papers up to A1 (24"). The optional stand collects prints to prevent them from falling on the floor.

The compact professional-level poster printer

Whether this is your first investment in a large format printer or an expansion of your current print and reproduction facilities, look no further than the Epson SureColor SC-T3100x.

Designed for those who need a professional-level poster printer without a significant total cost of ownership, the SC-T3100x guarantees exceptional print performance and productivity. The 4-colour printer features a compact 24-inch design, which fits neatly into any workspace, and a high-capacity refillable ink solution via four 140ml ink bottles.

Increase productivity and creativity

Whether printing point-of-sale material, posters or any other bright and vibrant images, the SureColor SC-T3100x is designed for professionals looking to increase their productivity and creativity.

Small point of sale shops

Large format printing elevates your brand and makes offers stand out while minimising running costs.

High print volume posters

Supports a wide range of file formats, desktop publishing applications and design software packages.

Education

Generate engaging printed collateral for the classroom and print learning materials in-house.

High print volume CAD/GIS

Print your own CAD/GIS material easily – and deliver the best results for your clients.

Committed to corporate and social responsibility

Epson is committed to developing environmentally conscious products, which means that sustainability is considered from conception to completion. We help customers recognise the environmental gains brought on by technology, whether it is redefining manufacturing through innovative robotics, saving energy with our office printing technology or revolutionising textile printing with digital solutions.

We are committed to all 17 United Nations' sustainable development goals and to the aims of the circular economy. We offer sustainable innovations because we recognise that the choices we make as organisations, individuals or a society will be essential to our shared success.
