

PANTONE® FHI Color Guide

FHIP210A

Overview:

315 New Colors just added! 2,625 market-driven, trend-relevant Fashion, Home + Interiors (FHI) Colors in two portable handheld guides. The Textile Paper – Green (TPG) Colors match back to our Textile Cotton System (TCX), allowing for versatility in the design process. TPG Colors are achieved through applying a lacquer to a coated stock paper. The perfect on-the-go tool for inspiration and color communication for ceramics, paint, cosmetics, fashion accessories, and leather goods.

- Illustrates all 2,625 Fashion, Home + Interiors System Colors as a lacquer coating on paper for hard home goods
- Pantone's paper format colors also match our FHI Cotton Colors for soft goods
- Two compact fan decks for easy reference and viewing on the go
- Eco-friendly coating formulation

Format:

- Portable fan deck in a two-volume set
- Features seven Fashion, Home + Interiors Colors per page
- The TPG (Textile Paper – Green) suffix indicates a lead- and chromium-free formulation of our TPX lacquer coatings, for a safer, environmentally friendly product

Color:

- 2,625 FHI colors, including the latest 315 market-driven, trend-relevant colors
- All TPG Colors match back to our FHI Cotton Products
- Improved chromatic layout organizes all 2,625 FHI Colors by color family
- Colors arranged in chromatic format, with an index providing numeric location for each color
- Each color displayed with its corresponding number and name

Application:

- Use for hard home, ceramics, textiles, apparel, paint, cosmetics, fashion accessories, and leather goods
- Use for color inspiration, specification, and production at the office, lab, or on the go
- View color on both hard and soft surfaces, allowing for a versatile design process
